

Mini MOOC

Fly me to the Moon

EXPLORE

How did we get to the Moon ?

Example of students diagram

1st method: direct ascent
Landing craft directly to and from the moon.

2nd method: earth-orbit rendez-vous
used smaller rockets to launch separate spacecraft into the Earth's orbit

★ PRO-EDR-METHOD DOESN'T
REQUIRE A SPACECRAFT THAT IS
AS BIG AS THE DIREC ASCENT
DOES.

3rd method: lunar-orbit rendez-vous
